PROGRAM GUIDE SPRING OF 94

Letter From the General Manager

Dear Friend,

I would like to welcome you to WRUW's Spring 1994 Program Guide. Herein you will find all of the information you need to discover music from all over the world. Our programming staff has compiled the best mixture of music to fill your week. They have packed in 70 music shows and 10 public affairs programs covering everything from rock, classical, international, jazz and reggae to Michael Parenti, Cleveland's own Just Chillin', and Gaywaves. I encourage you to look through the guide, and sample different music and points of view each week. Look forward to a great semester, we have a lot of improvements on the horizon.

We have seen many changes over the past year, specifically, we are happy to have our new Station Director, Prof. Peter L. McCall. He is an alumnus of WRUW from 1980, when he did a world music/reggae show. Dr. McCall is a professor at Case Western Reserve University with a joint position in the Geology and Biology departments. Currently, he is the chairperson of the Geology department and has a law degree from Cleveland Marshall.

As you may know WRUW has a large music library: 91,000 albums and compact discs by last count, therefore we require a lot of space. We are currently renovating our office to provide more storage in our music library. This is our attempt to continue bringing diverse programming to Greater Cleveland.

WRUW has other major projects on the way for this year. We will be raising our antenna as a part of our power increase. This will strengthen the signal for the west side of Greater Cleveland, and also extend our broadcast radius. In addition, we are planning to redesign our studio layout to incorporate a new on-air console. This is where you come in. We are having our Telethon this semester, in fact it starts on February 28. Our Telethon is an annual event where WRUW requests support from its listeners. This is your chance to help us reach our goals, and provide for a better WRUW. To remind you, the money does NOT pay anyone's salary, because all of our staff members are volunteers. Your donations do not pay for daily operations, but they fund WRUW sponsored events, such as Studio-A-Rama and the Folk and International Festival - our two annual summer concerts; In addition, your donations provide for capital improvements, such as renovations and new equipment; Finally we purchase new music, providing further diversification. We have set a goal of $30,000 this year. We believe that we can pull together to make WRUW the best it can be. Join us in 1994 and make it the best year in radio.

Thanks for listening,

John "Flash" Gordon

Underwrting on WRUW-FM

WRUW-FM 91.1 is licensed by the Federal Communication Commission (FCC) as a non-profit and non-commercial radio station, and as such is not permitted to advertise any service or product offered by any business or person for profit. WRUW is, however permitted to accept ''underwriting'' from a for-profit or non-profit organization. Underwriting is in essence a grant or contribution to sponsor a particular program on the radio to assist in the production of that program and the improvement of the station as a whole. The grant, in form of money or merchandise, helps enrich the type of music the particular show offers or contributes to the technical expenses some programs require. Some of the money raised by underwriting will join the money raised by our annual telethon to finance the projects of raising our antenna to strengthen our signal and redesigning the studios layout to comprise the new console. The underwriting announcement is not a mere advertisement for the business or organization, but a statement that acknowledges the fact that the business or organization is supporting the program and the radio station.

Underwriting a radio show on WRUW-FM is an effective way to reach a target audience. Whether the customers of the underwriter are professionals, college students, housewives, children, teens, senior citizens, or of different ethnic backgrounds, WRUW-FM offers a program that will draw and please that specific audience. The station, as you may already know or will discover by reading this program guide, offers a wide variety of alternative music programming from folk, jazz, polka and classical to industrial, show tunes, international and dance music. Our broadcast area extends from Mentor-on-the-Lake to Rocky River and as far south as Solon reaching over a million potential listeners and fifty thousand dedicated ones.

So if you think that this form of inexpensive advertising can be of help to your business or someone's you know, give us a call or relay the message. Our underwriting director will be available to answer your questions, provide you with more information regarding rates and forms of announcements, plus a list of appropriate programs. Underwriting on WRUW-FM, it's effective, inexpensive and most of all, it demonstrates your support of the Cleveland community and non-commercial radio programming.
